## “Golf Towels”

Golf Towels are especially handy for those rounds on a wet or dewy day. Improve your game by putting with a dry and clean ball. Your fellow golfer will admire your towel as he wipes the grass off his ball on the ground or his pants.

### **Skill Level: Beginner**

Created by: Kelly Laws, Marketing Project Manager

### **Supplies:**

Baby Lock Ellageo (BLL), Esante (BLN), or Ellure (BLR)

Hand towel

1 package grommets with setting tool

1 curtain hook

40 wt. embroidery thread in assorted colors

Dissolve-Away Mesh (BLS500)

Aqua Melt Topping (BLS400)

Machine embroidery spray adhesive

Fabric marker

### **Instructions:**

1. Set up the machine with the embroidery unit attached, 40 wt. embroidery thread in the needle.
2. Use a fabric marker to mark the location for the embroidery on the towel.

3. Hoop the stabilizer in the large embroidery hoop. Lightly spray the stabilizer with the machine embroidery spray adhesive.
4. Using the inside bottom edge of the hoop for placement, align the lower edge of the towel along the edge of the hoop, sticking it to the stabilizer.
5. Lightly mist a piece of Aqua Melt Topping and place it on top of the area of the towel where the design will be embroidered.
6. Select the golf design from the exclusives section of the machine's built-in designs.

Golf design on Ellageo and Esante

Golf Design on Ellageo and Ellure

7. Use the arrow keys to move the design up or down.
8. Embroider the design using the suggested colors or your own color preference.
9. Remove the towel from the hoop. Remove excess stabilizer and markings.
10. To attach the grommet, mark the location at the top corner opposite the embroidery design. A grommet has two sides, a larger side with a shank and a smaller flat piece.
11. Use the tip of your scissors to cut a small hole large enough for the center shank to fit through. Place the shank through from the right side of the fabric.
12. Turn the item over onto a hard surface.  
*Note:* Do not do this on a surface that easily damaged as you will be hammering the grommet together.
13. Place the flat side of the grommet over the shank, position the setting tool according to the manufacturer's directions, and then hit it firmly with a hammer.
14. Hook the curtain hook through the grommet and attach to your golf bag.
