Baby Lock Flourish II
(Model BLMFO2)
Software Update Version 1.22

September, 2017

Introduction

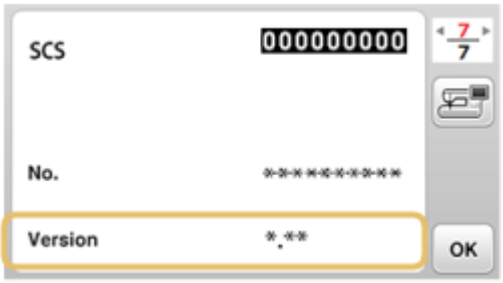

If the software version of your Flourish II (Model BLMFO2) is earlier than version 1.22, an update program is now available for download to improve its performance.

Version 1.22 update will provide the following changes:

1. Revised the wording of messages.

To confirm the software version of your BLMFO2

2. Press the power switch to "|" to turn on your machine.
3. Press  (Settings key) to display the machine's Settings screen.
4. Switch the Settings screens by using ◀ (Previous page key) or ▶ (Next page key) to display the machine's program version.

5. If the "**Version**" shown in the screen is already "**1.22**" or later, it is not necessary to update your machine with the program on this page.

How to download the update program

1. Create a temporary folder (ex. C:\Temp) on your computer to save the update program file to be downloaded.
2. Click the “DOWNLOAD FILE” below.
3. Select the previously created temporary folder (ex. C:\Temp) where the downloaded file should be stored.
4. Download the file.

Download FILE (UPF File, size: 20.4 MB)

How to update your machine’s software

You can update the machine’s software using a USB media.

Follow the procedure described in the instruction manual.

Instruction PDF (File size: 484 KB)

*** * * NOTE * * ***

- Do not turn off your machine while the machine is saving the update software to itself. If the machine's power is turned off while saving the update software, it may result in damage to the machine.
- When using USB Flash drive (USB Flash memory) to update the machine’s software, check that no data except for the update file is saved on the USB Flash drive (USB Flash memory) being used before beginning update.
