

## “Monogram Scarf”

Make a quick and easy monogram scarf using the built-in lettering and embroidery editing capabilities on the Baby Lock Unity and Spirit embroidery machines. These simple and fast projects are perfect for last minute Christmas gifts or birthday presents.

### **Skill Level: Beginner**

Created by: Kelly Laws, Marketing Project Manager

### **Supplies:**

Baby Lock Unity or Spirit Embroidery Machine  
Decorative embroidery thread  
Purchased wool, fleece or sweater knit scarf  
Baby Lock Press-Away Stabilizer OR  
Baby Lock Wash-Away Stabilizer (for washable fabric types)

### **Instructions:**

1. Hoop the Baby Lock press-away or wash-away stabilizer in the hoop and lightly spray with embroidery spray adhesive.
2. Position the scarf on the hoop in the general area you want the monogram to be placed.

3. In embroidery editing mode, choose a font style from the built-in lettering options. Then select the initials for the monogram.
4. Select each letter individually by adding them as if they were separate designs. This will allow you to adjust each letter individually to completely customize your monogram.
5. Select the center letter (last/sir name initial) and resize it so it is larger than the other two letters.
6. Then adjust the size and spacing of the other two letters so they fit close to the center letter as desired. Note that some alphabet letters due to the font and shape of the letter can appear closer or farther away even though they measure the same number of spaces away. It is best to have the monogram letters visually appear equal distant even if the spacing is not an exact match on each side.
7. Once the design is complete set the design. Use the Sensor pen to exactly position the monogram on the scarf by selecting the sensor pen icon and following the screen prompts to touch the scarf in the exact placement you would like the monogram.
8. Embroider the monogram using your preference of embroidery thread colors to compliment your scarf.
9. Remove the project from the hoop. Trim away any excess stabilizer and then following the stabilizer directions either press or wash away the stabilizer you used to reveal your custom monogrammed scarf.
