

Longarm Accessory

Baby Lock

CORONET POLE FRAME UPGRADE

Easily roll and advance your quilts on your Coronet longarm frame like you're using a traditional four-rail system. The Coronet Frame Pole Upgrade expands your quilting possibilities by giving you new attachment options. Includes two 4-1/2' leader cloths and hook-and-loop closures for easy maneuverability.

Features

Handwheel

Easy access hand wheel and smooth-rolling bearings make advancing the quilt a simple task.

Versatile Design

Use your clamps without having to change configuration.

Pole Cradles

Snap-in poles and ratchet wheels prevents slipping.

Not only does this helpful upgrade eliminate the need to baste layers, it also fully supports the quilt's weight on the rails. It's best recommended for lap, baby or smaller quilts, wall hangings and smaller quilted projects.

Quilt Your Way

Easily switch between clamping your quilt and rolling it.

Heavy Duty Construction

Made of durable with corrosion resistant zinc-plated hardware.
